DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

Embodiment 1 of Figs. 1-2

Embodiment 2 of Figs. 3-6

Embodiment 3 of Figs. 7-8

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the

Art Unit: 2811

election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
